

March 18, 2014

Chairman Steve Heick called the meeting to order at 5:32.

Those present were: Kendria Cada, Nancy Largent, Tony Johnson, Suvia Judd

Tony made a motion to approve the minutes. Nancy seconded, motion passed.

Michelle Fuson said that their office has been very short-handed and extremely busy which has prevented them from working on any additional code changes. We will wait to see the code changes to make the final decision about a public input meeting vs. a public hearing.

Legislation has added changes to the appeal process, so Michelle said she would have to work on that. She is also working on the wording for code changes.

Nancy Largent has been selected for the Zoning Commission. She will serve on both commissions for the time being until we know if Cindy Agidius is coming back and how many positions we may have open.

The next meeting will either be April 15 or 22 - we will be informed of the date. Michelle will try to get with Bill Belknap about the area of impact.

The meeting was adjourned at 6:50
