RE: Vehicle Thefts in Troy

On 10/6/2006 at 01:07 your Latah County Sheriff's Office received a report of a two-vehicle theft from a residence on Main Street in Troy. According to the case history, a blue 1965 Chevy Impala convertible and a 1985 Honda Goldwing motorcycle were stolen out of a shop that had been broken into (the shop also sustained damage). At about 07:42, the Sheriff's Office received a report from the Idaho Transportation Department that they'd located a motorcycle "in pieces" at milepost 10.7 on Highway 99 in Latah County; the motorcycle was the same that had been stolen earlier in the morning from Troy. The motorcycle appeared to have been involved in a wreck; however, no one has been located in the area or has reported wrecking a motorcycle at that location. The Impala convertible has not yet been located. If you have any information about these thefts or if you see a vehicle matching the description of the 1965 Chevy Impala, please contact the Latah County Sheriff's Office at (208) 882-2216, or your local law enforcement agency.
